Countries, donors and multilateral institutions must be prepared for the worst

A rapidly spreading pandemic due to a lethal respiratory pathogen (whether naturally emergent or accidentally or deliberately released) poses additional preparedness requirements. Donors and multilateral institutions must ensure adequate investment in developing innovative vaccines and therapeutics, surge manufacturing capacity, broad-spectrum antivirals and appropriate non-pharmaceutical interventions. All countries must develop a system for immediately sharing genome sequences of any new pathogen for public health purposes along with the means to share limited medical countermeasures across countries.

Progress indicator(s) by September 2020

- Donors and countries commit and identify timelines for: financing and development of a universal influenza vaccine, broad-spectrum antivirals, and targeted therapeutics. WHO and its Member States develop options for standard procedures and timelines for sharing of sequence data, specimens, and medical countermeasures for pathogens other than influenza.
- Donors, countries and multilateral institutions develop a multi-year plan and approach for strengthening R&D research capacity, in advance of and during an epidemic.
- WHO, the United Nations Children's Fund, the International Federation of Red Cross and Red Crescent Societies, academic and other partners identify strategies for increasing capacity and integration of social science approaches and researchers across the entire preparedness/response continuum.

This GLOBAL, MANDATORY INJECTION was planned in 2015 by the COVID RICO CONSPIRATORS

“...until an infectious disease crisis is very real, present, and at an emergency threshold, it is often largely ignored. To sustain the funding base beyond the crisis, he said, we need to increase public understanding of the need for MCMs such as a pan-influenza or pan-coronavirus vaccine. A key driver is the media, and the economics follow the hype. We need to use that hype to our advantage to get to the real issues. Investors will respond if they see profit at the end of process, Daszak stated.”

What Went Wrong?

- **NATURE** was hijacked in the name of “**SCIENCE**” based on the malleable CoV model and subject to **UNETHICAL GAIN OF FUNCTION** manipulation
- “**SCIENCE**” was hijacked by government agencies for defense and civilian commercial gain (Fauci’s pursuit of a “**Universal Vaccine**”) with no **MORAL** oversight
- **MORALITY** was hijacked to coerce a population to accept a “**Medical Counter Measure**” under the illusion of “**doing your part to help humanity**”
- **HUMANITY** was hijacked to acquiesce to losing liberty without any consent
